

Text: Abeka's "Language 3"

This curriculum provides an excellent and abundant variety of practice exercises for your third grader as he begins the formal study of English as an academic subject. Students will benefit from solid skills instruction that will develop their ability to think and to express their thoughts correctly in both spoken and written English. Capitalization; punctuation; correct sentences; proper word usage; using synonyms, antonyms, and homonyms; and recognizing nouns and verbs are emphasized. Dictionary skills, journal entries, and creative writing skills are also developed.
