

Text: Abeka's "Animal Friends" and "I Learn, I Do, I Can"

The Kindergarten Reading Program teaches students to recognize all upper and lower case letters and their sounds. They will work to master 100 sight words and will fluently read most CVC words without sounding them out by the end of the year.

Accelerated Reading Text: Abeka's Readers and Library Books

The Kindergarten Accelerated Reading Program identifies students who have a strong foundation in Phonics, comprehension and critical thinking skills. The pace of instruction is determined by the ability and success of each individual student. The student will progress through the ABeka First grade reading curriculum at his/her own pace. As their reading and comprehension skills progress, each student will increase in their Lexile score.
