

Text: Abeka Bible Curriculum for Kindergarten

The primary goal of the Abeka curriculum is to make the Word of God meaningful to the lives of the students. The curriculum provides a foundation of the Old and New Testaments through various Bible stories. As the children learn God's Word through these Bible stories the hope is that they will learn to love Jesus Christ as their Savior. In addition, our hope is that they apply their knowledge of God's Word to their lives. Bible topics covered during Kindergarten are: Salvation, Creation, Old Testament characters, Thanksgiving, Christmas, the Ministry of Jesus and the Crucifixion and Resurrection of Jesus. Weekly Bible verse memorization complements each lesson.
